Introduction

Dairy Partners Limited is aware that slavery, servitude, forced labour and human trafficking is a global and growing issue given the rapid rise in global migration, existing in every region in the world and in every type of economy whether industrialised, developing or in transition.

We all have a responsibility to be alert to the risks, however small, in our business and in the wider supply chain.

Our Business

Dairy Partners Limited is one of the UK's largest manufacturers of mozzarella cheese and is the only fully integrated pizza cheese and mozzarella manufacturing, shredding and process business in Northern Europe.

Our Supply Chain

All ingredient and packaging supplied, are from reputable, established sources. All of these suppliers will have been evaluated against GFSI scheme and whilst the GFSI schemes are primarily focused on Food Safety, Integrity and Legality, each one has a section that deals with personnel and personnel welfare.

As part of our initiative to identify and mitigate risk, where possible we develop long standing relationships with our suppliers and make clear our expectations of business behaviour.

Supplier Adherence to our Values

Dairy Partners Limited has zero tolerance to slavery and human trafficking and expects all companies within its supply chain, including contracted services, to comply with its business values.

The Board of Directors are fully committed to ensuring that modern slavery and human trafficking plays no part in its business supply chain, or in any part of the business.

Training

To ensure a high level of understanding of the risks of modern slavery and human trafficking in our supply chains and business, awareness training will be provided for relevant members of staff in order to develop procedures to support the policy and to report Key Performance Indicators in future statements.
